# The Chemistry And Wonders Of The Human Body

## Synopsis

2013 Reprint of 1921 Edition. Full facsimile of the original edition, not reproduced with Optical Recognition Software. George Washington Carey (1845-1924) was an American physician known for a number of his 'Chemistry of Life' publications, a subject which he referred to as biochemistry, particularly in his 1919 "The Chemistry of Human Life". Carey combined a mixture of religion, astrology, physiology, anatomy, and chemistry, themed particularly with a mineral-based theory of human disease, to develop his theories. Carey is popular among the new-age and homeopathic circles. In the context of a person viewed as a "human molecule", Carey was the first to state that a person's body is a "chemical formula in operation." With the renewed interest in homeopathy, increased study of astrology and the entrance of the Aquarian Age, Carey's work has gained more importance. This book serves as a biochemic statement of the cause of disease and the physiological and chemical operation of the human organism and its chemical formulas as well as a statement on the chemical bridge or link between man and God.

## Book Information

Paperback: 158 pages

Publisher: Martino Fine Books (November 1, 2013)

Language: English

ISBN-10: 1614275122

ISBN-13: 978-1614275121

Product Dimensions: 6.1 x 0.4 x 9.2 inches

Shipping Weight: 2.4 ounces (View shipping rates and policies)

Average Customer Review: 5.0 out of 5 stars 4 customer reviews

Best Sellers Rank: #420,497 in Books (See Top 100 in Books) #150 in [Books > Health, Fitness & Dieting > Alternative Medicine > Homeopathy](#) #537 in [Books > Religion & Spirituality > New Age & Spirituality > Astrology](#) #565 in [Books > Engineering & Transportation > Engineering > Bioengineering > Biochemistry](#)

## Customer Reviews

This is an excellent book to read and is loaded with very important information on how the body heals itself.

deep understanding. Even more relevant today than when it was first published.

Great book

Extremely fascinating explanation of the 12 cell salts and discussion of why infection does not work the way we are currently taught. e.g. why they find cholera in the water and no infection in man, why the imbalance in the body cause organic matter to become stagnant in the tissues and the microbes feed off that matter. The microbes are not the issue, they are all around us. The issue is the deficiency which doesn't allow food to properly be broken down and utilized for water balance and movement of albumen and fibrin in the tissues.
