Customer Reviews

Excellent book that is filled with vital information, including natural alternatives. I've shared this with several family members and friends. Our family has suffered vaccine damage, along with all our previously vaccinated pets. No more for this family. The evidence is overwhelming and NO vaccine is safe; all cause harm and brain inflammation. The doctors honest enough to tell the truth are right; vaccination is insanity and it can never give immunity or health. Thank you for writing this great book.

It's what everyone should read, it has great info but the recipes should be vegan if you wants to keep from disease.
