## Customer Reviews

BlackNES Guy started gaming way back in the late 80's and early 90's. His very first

experience with a game system was a Nintendo Entertainment System at a friends house. Picking up a NES controller and playing ExciteBike blew his tiny young mind away. After that he begged his parents for one and then one fateful Christmas morning.....A Super Nintendo was under the tree and he has owned every single Nintendo system since that. He is long time gamer and appreciates how things were done back in the day. Yet does love to spend some time playing some modern games, mostly racing and 3rd person shooters. Favorite game: Legend of Zelda: A Link To The Past (like there was another choice!) Favorite system: SNES Follow me on: Twitter @blacknesguy Instagram @blacknesguy

For those interested in getting the most out of the 30 games integrated in the Nes Classic, this book includes some codes and tips that can be useful and fun. It will remind them that time of the codes "on the home screen press A-A-B-Up". The guide is very basic and has few illustrations. It is not the best option to get details or guides step by step, it is extremely simple. Finally, I have had problems adjusting certain pages to the screen of my device (i have the Kindle Edition), but it is only occasional. It fulfills what it promises, although leaves with the sensation that something is missing.

it is a short book only worth maybe 5 bucks if you have the NES mini

Great hint book.

It was ok. As promised just expected more

They left out how to get 100 men on mario though i printed it from the internet

Great book to fill me in on old games

Love it wonderful information

Excellent product!!
