Donna Ikenberry is a full-time freelance photojournalist and an avid hiker and bicyclist. She is the author of [Hiking Oregon and Camping Utah](#) as well as numerous other books and articles. Visit her at donnaikenberryphotography.com.

The content of this book strikes the right balance between conciseness and necessary detail. The author writes from personal experience and that works well in a guidebook. The most biggest negative of this guide is that it doesn't work well as an ebook since the maps are mostly useless in an ebook. This is not the fault of the author but something to keep in mind.

Great book. wish it told more about trail side campsites.

Basic trail information. Thought there would be more off the official route information. Expected more on backpacking camping locations.

Every thing I need and expected.

Wish it had more information on hikes from the Chicago basin. Pictures are great, it just wasn't much help in the basin.

Very informative. We hiked the Weminuchi trail and the guide was very helpful.

Good read on the Weminuche!

Great detailed book glossy color pages.
