Synopsis

“Deftly written and propulsive, this novel takes the reader on a you-are-there journey that never slows down.” —Michael Connelly

“Authentic and suspenseful” —a great thriller. —Lee Child

“Fong knows his stuff and delivers it. Fragmented is taut, tense and terrifying.” —Don Winslow

Deftly plotted, lightning paced and immensely readable, *Fragmented* is a stellar debut from a talented newcomer. We will be hearing much more from this new author. Highly recommended. —Sheldon Siegel

“Clean, vivid, and gripping, a knowing crime story written at street level. George Fong distills a twenty-seven year FBI career and his talent shines through.” —Kirk Russell

“Every page of George Fong’s haunting debut, *Fragmented*, bears the imprint of real-life experience. Here is a writer with the dark, magnetic wisdom of a man who’s seen the best and worst of the human species, and who possesses an intimate understanding of those who enforce the law, those who defy it, and the innocent lives caught in between. The story doesn’t seem just plausible or likely — it rings true, it feels lived. It will not just surprise and entertain, it will shock and disturb. Prepare yourself for some late night reading — and a nightmare or two.” —David Corbett

FBI Special Agent Jack Paris didn’t know why Alvin Cooper killed his own family five years ago. He just knew the man was guilty. When Cooper escapes a minimum-security prison and a young girl goes missing, he quickly becomes the chief suspect, and Agent Paris is back on the manhunt to capture a murderer before it’s too late. It’s the hottest summer on record in the Central Valley and the girl is a diabetic; without her medication, she won’t survive long. In this race against time, Agent Jack Paris soon uncovers a conspiracy more sinister than he could have possibly imagined.

Customer Reviews

Fragmented kept me turning pages from the first page to the last. I purchased "Fragmented" hoping to have something to read during my free time on a week long trip for work, however I finished the book on my overseas flight and wished I had a sequel to read when I landed. I would highly recommend this book to anyone and look forward to the next book.

This is a seductive thriller, fast paced, and scary in the realization the author knows what he's talking about. Excellent characterizations. The story is out of the headlines. Enjoyed this book. A great debut novel from a promising writer.

George Q. Fong is the real deal, and the book is authentic, gripping, and exciting. As required, he takes some license to keep things moving, but the juxtaposition of the best and worst of humanity is real and plays out everyday in the real world. He illustrates it vividly in Fragmented, and I can't wait for more! Nice work Fong.

Not only have the previous reviews been correct in describing this book and author, but I so hope it helps others choose this book. Mr. Fong's writing style captivates and left me anxiously awaiting his next book. I HOPE THERE'S A NEXT BOOK!! Now my husband gets to read it. Pretty awesome.

READ THIS BOOK!!!! this book will give you shivers and keep you reading until the very end. It has twist and turns when you read each chapter. It is a suspenseful chilling book. It also has action. I love this book and I'm sure you will love it too.

Written by a former FBI agent who knows his stuff. He also knows how to write a great thriller. I spent the day reading *Fragmented* instead of doing the work I was supposed to do, and I just finished it. A well-written, satisfying story, terrifying in its "realness."

I am a huge fan/reader of murder/intrigue mysteries. This book had me hooked from the start, and never let up. I sincerely hope there are more coming from this author. It was well written, compelling and believable.

Old fashioned I don't want to put it down or end. Plot and characters are great. Looking forward to reading George Fong's next book.
