Customer Reviews

"If you own horses and have but one book on your bookshelf, this should be it." HorsePlay Magazine "I really like this book. It is long overdue. Too many people are not familiar with the drugs we use." American Horse Show Assoc, D & M Committee -- Publisher Comments

ELEANOR M KELLON, VMD, magna cum laude graduate of University of Pennsylvania School of Veterinary Medicine. Internship and residency at New Bolton Clinic. THOMAS TOBIN, MVB, MRCVS, is one of the world's leading authorities on equine drugs. Dr Tobin is a Diplomate of the American Board of Toxicology, Professor of Veterinary Science, Gluck Equine Research Center of the University of Kentucky, and Director of the Graduate Center for Toxicology.

This book is a must have for any size barn, private home facilities to large competition facilities and even to the college student level. This was a suggestion for a class and this book is perfect. I've made notations at work about different drugs and what other books have said. This is one of those

books that everyone should have at hand.
