This was a great book. I really liked the ideas that it brought up and despite that I needed this book for class, this was a very informative book and I really liked how the information was presented. Really good for source information.

I never thought I would rate a textbook 5 stars.... but this was an easy and fun read. I really enjoyed this book.

Well written with good information. Unfortunately media changes too often and some is out dated. Need a website to get up to date information

It's an okay book. I've took a Journalism class, and this book took a long way to explain basic concepts. The information are fun to read, but could be repeating itself a bit. You will definitely learn more, especially on history of media and also how modern conglomerates dominates the market !

Easy to understand, and fun to learn from. The chapters are organized so nicely, and I love how up to date it is.

In great condition; saved me over \$50.00.

Good clean book, thank you.

Book is fine. I just got into the second chapter and found that there are three pages completely ripped out. It is probably not a huge deal, but I would have liked to purchase an "acceptable" status book with all the pages.
