Customer Reviews

As far as it goes, it is -- as always from Lonely Planet -- an excellent map. But how about a map that covers a larger area? Perhaps there are others like me who know central London pretty well and would like to explore a bit farther out. The London A-Z is available as an app, but I really crave a large paper map I can spread out at night to study and make my plans.

not much help for tourist.

Disappointed that the Metro stations are not superimposed on the map

It would be a better map if it included a larger area and not just central London.

I ended up returning it because it was very confusing to read and keep track of where everything was. I had the worst time finding all the underground stations and other attractions.

Great map. Current

Nice map
