Unity Of Good (Authorized Edition)

Synopsis

Unity of Good shows how an understanding of God as completely good brings healing to your life. With logic and deep compassion, Mary Baker Eddy speaks to our intuitive sense that God is supreme good, the only power, and that because He is All, evil is not the obstinate reality it seems to be. She speaks of the mission of Christ Jesus to save humanity from the belief in a power opposed to God. This book presents not abstract theory but practical Christianity with its demands as well as blessings.

ABOUT THE AUTHOR Mary Baker Eddy (1821-1910) was an influential American author, teacher, and religious leader. She is noted for her groundbreaking ideas about spirituality and healing, which she based on the Bible, particularly Christ Jesus' words and works. This system of healing, which she denominated Christian Science, puts into action all that she learned from her Bible study. Her ideas are fully articulated in her major work, the best-seller *Science and Health with Key to the Scriptures*, first published in 1875. In 1879, she founded the Church of Christ, Scientist, in Boston, Massachusetts, which today has branch churches and societies around the world. She established her church "to commemorate the word and works of our Master, which should reinstate primitive Christianity and its lost element of healing." In 1908 she launched *The Christian Science Monitor*, a leading international newspaper, the recipient, to date, of seven Pulitzer Prizes. At her passing, hundreds of tributes appeared in newspapers around the world, including *The Boston Globe*, which wrote, "She did a wonderful and extraordinary work in the world and there is no doubt that she was a powerful influence for good."

Customer Reviews

Mary Baker Eddy is the founder of the Christian Science church. Many of her writings, including this one, gives you much to ponder and think about. This is no exception. If you're a thinker and think outside the box you will like this book.

I actually got nothing from this book. It was way too wordy and I was hoping to understand Christian Science but instead didn't even finish the first chapter. I would tell you not to buy this book

This book pushed my view of God to a new height. I have really appreciated the perspective as it has opened new doors for me in my spiritual growth. I feel less of the heaviness of religion and more context for why God must actually be all-loving.

Very Inspiring.Needs to be studied!!!! Probably radical to some. MBE was a most original thinker.

The font type is at 8. Very hard the read

Wonderful...

This book written by the discoverer of a religion over a century ago, tells uw who we are in truth and in God. Very informative aond concise about the true meaning of life and how to live it.

A thought provoking book about God and His power to heal.
