The Religions Book (Big Ideas Simply Explained)

Synopsis

Surveying the world's religions, from Buddhism to Zoroastrianism, and providing succinct yet thought-provoking insight into the philosophy and practices of each, The Religions Book is ideal for anyone seeking to gain a better understanding of the world's religions. With intriguing artwork, flow charts, and diagrams, complex world religions are made accessible in this comprehensive guide. The Religions Book is also perfect for religion and philosophy students.

Customer Reviews

"[The Big Ideas Simply Explained books] are beautifully illustrated with shadow-like cartoons that break down even the most difficult concepts so they are easier to grasp. These step-by-step diagrams are an incredibly clever learning device to include, especially for visual learners."

—[Examiner.com](#) "[The Religions Book is] at once egalitarian and open-minded, ideal for a visually oriented student of religion or anyone interested in scrambling up the mountainside of human spirituality and taking in the panoramic views." —[BookPage](#)

Like all DK books, The Religions Book is an excellent resource. Beautiful, formatted well, easy to read. Fascinating subjects broken down into understandable overviews and reflections. You cannot go wrong when you buy a DK Publishing book. They are always written by reputable scholars, full of incredible illustrations or pictures, and a pure joy to read. You rarely even realize you are LEARNING! This book is no different. Buy it. BUT . . . DO NOT BUY THE KINDLE VERSION. I have never seen a worse Kindle book. Whoever formatted this book for Kindle should be sent back to

school (or prison?). You cannot read it on Kindle. You cannot read it on the PC. It pops up in a little box of tiny text that you cannot even zoom in comfortably to read! You cannot highlight. Just a terrible experience. It really is not fair that an awesome book like this gets its reviews skewed because whoever was in charge of the Kindle version RUINED it. I own a dozen or more DK books and treasure them all. The Kindle version is garbage, but the book itself is nearly perfect.

I truly love this kind of book. I have the 'Philosophy' and 'Psychology' book both by the same author (DK Publishing). This book takes each major religion and really breaks it down to its essential beliefs. This book is also an easy read and almost a short story format. People who love to learn but do not have the time to read a whole book would really benefit from books like this by DK. This book in particular really answered a lot of questions I have had on other religions without being bias. It is so difficult these days to find a book on religions that is not bias and to me that's yet another reason to love DK publishing. Something else that this book covered which I really appreciated was it went into the different kinds of Christians. This book is theology so there is interpenetration and points of view which the reader must decide on. This book is a great resource to have for any questions you may have on religion. If you are looking for a book that has all of the major religions in the world with clear information that is not bias then look no further.

While the content of the book is great, the Kindle formatting is terrible. It is completely inconsistent with every other Kindle book I have purchased. Supposedly you can zoom to enlarge text and double tap to see all sidebars. None of those features work. Double tapping actually seems to randomly jump you back and forth between different sections of the book. It seems that one other book in this series has formatting problems as pointed out on the kindle order page. All of the DK Publishing books in this series need to be re-assessed as to readability.

Best book I have found about the backgrounds of literally every religion ever practiced on the face of this earth! Very interesting!

This book helped me learn about other popular religions in a way that is very easy to understand. I recommend purchasing this book if you are taking a World Religion course, or just simply would like learn about other religions. I had purchased the hardcopy of the book, so I cannot speak for how the Kindle version is.

It is a pretty good book as a shallow introduction to different religions. I bought this for my wife, as she asks me a lot of questions about different religions. Now, we have a quick reference! It's pretty good. The layout is a little inconsistent, but it gives you some good info.

I like this book. It is a fast reading and it covers all religions. It is interesting.

Has enough information for you to sort of connect the dots between many religions. Not enough info to know them in depth, but enough to put you on the right path to learning
