Cest A Toi Level Two (French Edition)

Synopsis

The most communicative three-level French textbook on the market today is also the most up-to-date. All conversations, activities and visuals have been updated to include prices in euros. A new Communication *À l'électronique* section focuses on exploratory Internet activities corresponding to the content of each unit, and the *À moi de jouer!* sections allow students to synthesize each unit's functions in an original dialogue or narrative based on illustrations. Written by four current high school teachers, *C'est à toi!* is the first truly functional approach to learning French. Featuring a realistic mix of activities covering all five basic skills, it allows your students to develop proficiency as they perform meaningful tasks in French. The most comprehensive French program available, with a full range of correlated, integrated support and expansion materials, appeals to today's students with multiple learning styles. A stimulating mix of interactive activities progressing from practice to partner to cooperative groups leads to meaningful communication in realistic situations. In-depth coverage of various francophone cultures gives students a solid understanding of and appreciation for the language within its multicultural, diverse context. A carefully controlled vocabulary and bridging of structures allow for constant recycling of basic information to form the foundation for developing proficiency. A unique approach to teaching reading, writing, and organizational skills gives students the tools they need to experience success as they communicate in French.
