# European Politics

## **Synopsis**

Featuring carefully edited contributions from international experts, European Politics blends an analysis of individual nation states with an examination of the critical issues that confront them all. Taking into account the enlargement of the European Union, it provides coverage of Central and Eastern Europe along with discussions of Western Europe. The text considers both the national and transnational factors that affect and are affected by politics in Europe--notably European integration and globalization. European Politics includes chapters on all the major issues, organized into four sections. Section One provides basic information and details of the essential debates concerning the states of Europe and the European Union. Section Two presents comparative chapters on the key features of European politics. These offer a sense of the major areas of continuity and change across Europe as a whole. Section Three again presents explicitly comparative chapters outlining the developments in specific policy sectors. Finally, Section Four outlines the nature of Europe's external relations. European Politics is enhanced by excellent pedagogical features including readers' guides, key points, questions, web links, text boxes, a glossary, and a guide to further reading. A companion website features resources for students including an interactive map of Europe with facts, key dates, and web links for twenty-six countries; multiple-choice questions for each chapter; and a flashcard glossary. It also contains PowerPoint slides for instructors.

## **Book Information**

Paperback: 490 pages

Publisher: Oxford University Press (February 16, 2007)

Language: English

ISBN-10: 0199284288

ISBN-13: 978-0199284283

Product Dimensions: 9.6 x 0.9 x 7.4 inches

## **Customer Reviews**

‘All of the chapters are well written by outstanding scholars, providing comprehensive but

accessible coverage of the topic. The book is commendable reading for students and a useful didactic instrument for lecturers in the field of European studies.' Sorm Denca, University of Birmingham

Colin Hay is Professor of Political Analysis at the University of Birmingham. Anand Menon is Director of the European Research Institute and Professor of European Politics at the University of Birmingham.

This was required for a class, but frankly it was interesting enough I was even willing to read the chapters not assigned. It's well organized and researched, and the writing straddles the line between "academic journal article" and "interesting newspaper article." It clearly conveys a lot of information without boring or overwhelming the reader. My professor supplemented this book with ch 3 of Vivien Schmidt's "The Futures of European Capitalism" in order to help us better understand how European economies differ from the USA and each other. Despite the fact that I didn't think I'd be particularly interested in this subject, it turned out to be one of the most interesting classes I've taken (I am a senior in college working on my BA in Political Science.)
