Customer Reviews

I recently bought this book, and while helpful I couldn't help but feel as if I was being talked to as a three year old. Of course I am going to get out of it what I want, however I wish the author would have spent an extra day proof-reading before printing. For what little assistance there is; it is mired in bad, or no editing, and I am speaking of things that change meaning... For example "The reason for this is because when you throw your body right into static stretching before your muscles have had a chance to catch up and get pliable, you actually reduce the effectiveness of more dynamic movements and REDUCE the risk of injury". I'm quite certain she meant increase the risk of injury which entirely changes the meaning. This is one of many, and while some may say you're being over harsh on your analysis, I feel that if I'm spending money to buy a book from you that you can have the respect for your audience to edit it. It's very distracting to read something you're trying to learn when it's poorly written.

Not bad, but the black and white photos are not too great. I'm not finding myself reaching for this as a reference very much. Its inexpensive though, so that's good.

Well,, i bouhgt this one because the great reviews, but it is not so amazing, its a book with poses that you can find on youtube, and it doesnot give great advices. Just say..do this , breath, repeat and so on. Reallydissapointed

Seriously? This book has some really basic postures and I'm not a fan. I thought maybe this can help me get my basics down but it's like not even yoga 101. I hated this purchase. It's not a good book by any means. It's the equivalent of getting a child's book on yoga with poses that aren't even

named correctly.

product was as described, arrived on time. Would buy again and from same vendor.

Pictures are ok. descriptions are not as clear as I would have liked.

Not quite what I expected from the cover. Still good information

Fun, yet the focus feels as if it pulls away from the roots of yoga. However, I hope this acts as a gateway for ANY MAN that thinks yoga is not worth his time. It totally is.
