## Customer Reviews

I enjoyed reading this book. It made me understand why sometimes people does not understand how you feel when you feel like you are the victim. It is when you confronted another person for the wrong thing done and the latter acted like the victim. I was in this situation a lot specifically while growing up. I find this infuriating. This book made me realize why it happens especially in a family.

The author shared good insights into body language and its meaning. Here you will find an explanations of all most common signals, that people use in their communication. I think this book will be the best variant for those, who didn't read a lot about communication and leadership. It can be a good basis for everyone. Thank you Luke Sutton.

This book is very good and its very informative it contains tons of interesting information on how you can analyze people. And this book is very straight to the point and by reading by pages it gets more interesting. This book is very well written by the author and i really appreciate it and highly recommend this book to all of you guys.

I'm transferred to a new job and now I have much more contact with people. For this reason I decided to improve my knowledge of nonverbal communication and learn to understand different types of people. This book is for me very helpful. Here I've find great tips that are easy to understand and, I believe, easy to apply. Well done!

Everybody, at some point, has trouble interacting with others and who wouldn't want to be able to analyze others, right? This book is perfect for everyone because it somehow simplifies the keys towards successful human interaction. It is well-written and simplified and everybody will understand!

I spent sometime walking around thinking about my closest friends and worst enemies just to see how deeply I can analyze them. The results? Kinda mixed because people are different after all and some of the concepts mentioned in the book fall flat. But other aspects, I felt a deeper

understanding that kinda led me to predicting certain things about their personalities. I feel like a fortune teller or something.

This book was very interesting, and I enjoyed the parts about extraversion, intuition, thinking and judging. It has some really great and proven techniques to analyzing people and to read the body language of people

Very useful guide on "how to read people". Here you will find an explanations of all most common signals, that people use in their communication. I think this book will be the best variant for those, who didn't read a lot about communication and leadership. It can be a good basis for everyone. Written good, you will read it very fast and easy. Also practical.
