Perrin Elkind's evocative and beautifully written account of her stay in Zimbabwe transports the reader to a different social and cultural space. Her account of personal change through her rich experience is so thoughtful and powerful that we are changed as well. --Paul Joseph, Sociology Dept., Tufts University

"Tonderai" is the Shona name that was given to Perrin. Appropriately, it means "Remember." Tonderai conveys a vivid sense of Zimbabwe - the land and its indigenous people; readers feel they are literally looking over Perrin's shoulder. Embedded in the book is a concept of education as an active process of doing, of experiencing life with all the senses, and learning through interaction with others.

A wonderful account of a young college student's experience in third world Zimbabwe. Though focusing mostly on a feminist aspect of the country, Perrin's travels are well rounded and insightful. She takes you out of your comfortable lifestyle by showing us what and how we take our lives for granted. Very motivating in you are interested in world relief.
