Cartographia, organized in 1954, is the largest map publishing company in Hungary. Its tourist, city, and road maps, and atlases, cover destinations throughout Europe and other parts of the world. The firm has also produced cartography for well-known map-publishing houses such as Falk, Ravenstein, Hallwag, Freytag Berndt u. Artaria.

We recently went on vacation to Croatia and Slovenia and drove all over both countries. It was hard to find a good map, but I was so glad that I had ordered this map in advance, because it was the best and only good driving map that we found on the whole trip! If you're going to be driving in Croatia and/or Slovenia, this is the best map for you. It clearly labels all the roads, cities, towns, mountains, etc., and between this great map and the excellent signage on the roads in both countries, driving was very easy.

Map of Croatia is pretty small and lacks insets of cities. The Slovenia map is much bigger though and does have a couple insets with city views.

Just enough detail to support my travels. I like the addition of trains/lifts and clear idea of road size. I am a bicyclist and love the back roads!!

Love my map of Croatia. Recently put it on a cork board to pin the towns my DNA ancestors are from. It has helped me become familiar with Croatia. Nicely done map. Even has the small towns my grandparents are from on it.

Nice map, will work fine for our purposes.

Very clear with lots of detail. Very helpful for driving.

Durable and accurate

While I will verify in about 9 months, the detail appears to be excellent, exactly what I was hoping for to plan a bicycling trip.
