Arthur Turns Green (Arthur Adventure Series Book 27)

Synopsis

Arthur comes home from school and begins sneaking around the house, taking notes and talking about a Big Green Machine. D.W. is suspicious of her brother's weird behavior, but when Arthur shows up late for dinner with green hands, she really gets the creeps! But it turns out Arthur is making a poster listing all the ways to save energy at home--and go green!

Customer Reviews

My kids love this!!!!

cute little story- my preschooler really enjoys.

Arrived in great condition in a timely manner and was as expected. Love the preview pages available on the site.

We purchased these books and donated one to each student in my daughter's class along with a small presentation regarding the environment. The students were super excited about receiving the books and each one wrote a summary and a couple of key ideas of what they plan to do to protect

and help the environment.

Reading this to my son was my first time reading it ever. It follows along the lines of all the other Arthur books. Really love this character!

All the Arthur books are great, and this is another great one. The book is printed on recycled paper with natural ink, which I like. There are many ideas about how to be "green" around the house. My 6 year old loves Arthur and this is one of his favorites.

I read this to my first grade class on Earth Day. I found it informative and my students found the familiar characters entertaining.

This is my first ever Video Review, in which I talk about the Arthur Adventure book "Arthur Turns Green." It's not exactly the most slick production, but hopefully you'll enjoy if you'd just like a plain review with a book of a look at the book and my honest thoughts on it. A couple of things I never got around to mentioning in the video but which you might like to know:- This book was printed in soy ink on recycled paper created from 50 percent postconsumer waste. So you aren't killing a tree simply by purchasing the book, instead, it actually supports what it says.- The style of the artwork has evolved somewhat since the last Arthur adventures. It doesn't look so much like the TV series - it returns to a somewhat more unique style with more detail, reminiscent of some of the earlier Arthur Adventure books, but still with the more evolved look for the characters.- The back cover features a number of the older Arthur Adventure books with a new appearance for their cover artwork - it appears they recently reissued a number of these titles with new cover artwork. That's all! For my full thoughts on the book itself, watch the video.
