The River Of Time Series

Synopsis

Love calls across the centuries in the River of Time Series. **WATERFALL:** Gabi and Lia are stuck among the rubble of medieval castles in rural Tuscany on yet another hot, boring, and dusty archeological site until Gabi places her hand atop a handprint in an ancient tomb and finds herself in fourteenth-century Italy. **CASCADE:** When Gabi and Lia find themselves back in the fourteenth century and in the middle of major battles alongside romantic knights in shining armor they have no idea if they can get back. Or if they even want to. **TORRENT:** When Gabi and Lia finally learn to surf the river of time, they realize they must make hard choices about life and love in Torrent, the third and final book in the River of Time series. --Lisa T. Bergren is the best-selling, award-winning author of more than thirty books that have sold 1.5+ million copies. A former publishing executive, she now splits her time writing, editing, and dreaming of her next trip to Italy while parenting her three children with her husband, Tim. They live in Colorado Springs, Colorado.

Customer Reviews

This book series was amazingly written! This is a time travel book so all the negative comments complaining because it wasn't "realistic" have no merit since time travel is not real. I loved the characters and the detail of the sword fighting. Having lived in Italy for a time I thought her research on the area and time was amazingly accurate. This is worth the time to read; it has a wonderful plot and keeps you turning the page. One thing I was disappointed in was the fact that this was listed as a "Christian" romance and yet you could clearly tell by the characters that they were certainly not Christian. Referring to God as "the big man upstairs" hardly constitutes as a Christian romance book. All in all I loved this series and it would be a great movie trilogy....way better than the Twilight series.

Having read through the Harry Potter and The Hunger Games multiple times, I was looking for a series with similar characteristics - good depth to the plot, great character development, and a believable alternate world. While the premise for the series is wonderful - the ability to time travel into the past with an emphasis on archaeology and culture - I found the plot repetitious and lacking in any real depth. The same story line is repeated over and over. Girls travel to past, girls are attacked by evil men, girls prevail under circumstances that would kill any mortal. Girls meet handsome boys in past (disregarding facts like lack of basic hygiene and sanitation) and fall in love despite clear cultural chasms. It's so repetitious, I could not even finish the third book. Plus, I really could not buy the subplot of (spoiler alert!) the mother and girls being able to pull their father back from the dead. Too many dissonant time travel notes also made this a difficult read.

I so loved this book!! Am a fan of all Lisa's books but by far this series is my fave I could not put it down kept me up late at night reading --- Love Gabi & Marcello true love story !! Love that all three books are told by the main character I thought that the second would be about Lia her sister but glad that it was all Gabi ... My only complain is that it came to an end !!! Great Job Lisa I am a Big Fan of your writing keep up the good work !!!

I started this series over a year ago with the first book that I got for free. Finally bought the series so I could have the other 2 books and really enjoyed finishing the story. I am blown away by someone who said it was an unlikely or unrealistic or something along that line. Hello people, it's fiction/fantasy! But if you want to get technical about it and ruin the enjoyment go ahead. If you want realism watch the news or reality TV, right? I'll just enjoy my fantasy reading, thank you very much!

I am such a fan of Lisa T. Bergren and her River of Time series is my absolute favorite. In fact, I read it twice within a month. Her characters are colorful and take on life. Her knowledge of the time period draws you in so that you feel you are a part of it. I already had the books but when it came available on e-book I bought it so I have it with me on my Kindle wherever I go and I can read it again whenever I want. Highly recommend (in case you couldn't tell. :))

Wow I love the characters & the story lines. And it keeps me guessing. Even if you know that the main characters will survive, you have no idea how they will pull it off. It's a page turner!

What a great read. Loved how the family were able to be together in time. Loved the intrigue. With everyone involved was so happy to see the love.

A good read. Love time travel books. A huge Outlander fan. This helped fill that void. Learned about medieval Italy.
