Whenever I bring this to class everyone who sees mine wants their own. My mom wanted her own so I bought one for her too.

This Quran is great for everyone, especially those who are wanting to learn how to recite it in Arabic. If you don't know arabic, the english transliteration is a great help. It provides the best arabic pronunciation with the use of english letters and accent marks. Over all i love this quran because of how easy it makes reciting with proper tajweed. It is a great investment for those who want to improve their Quran recital, and for parents trying to teach their children.

InshaAllah I will learn how to read the Quran correctly. The book is beautiful and the letters are big and easy to read. Includes English translation, explanations, and transliteration. I'm excited to start learning.

Just what I been looking for over the years. The fonts are just right for reading and it has everything I need to understand Quran Arabic. We will be ordering another one soon, so my husband and I will have our own. I would love to have a smaller one that I can carry with me while travelling.

I just got this yesterday. Came Fast with my Prime. I'm very impressed. This Quran is exactly what I

was looking for Ramadan. The book is of good bound quality, and the paper is of a good quality as well. I dont foresee it tearing easily. Im looking forward being able to speak the Quran and handing this down to my children later in life.

It's all there, Arabic, transliteration and translation. However I was the pages were lined up so that it would be easier to correlate the Arabic text with the transliteration and the translation.

best Quran to own.

Very well done. A great resource for the study of Quran, specially for non Arabic speaking persons.
