Chad & Sudan Map Pack

Synopsis

ITMB is pleased to announce the release of our most recent map pack bundling, this time of Chad & Sudan . This Map Pack has a value of \$26 if purchased separately, and a packaged price of \$5.95 if purchased in this bundle. The maps are all current editions, conveniently grouped together in transparent plastic bag with a new cover, showing the covers of two maps. Chad Travel Reference Map 1:1,130,000 This is a double-sided and very detailed map of Chad. Formerly the northern portion of French Equatorial Africa, Chad is famous among history buffs as being the jump-off point of General LeClerc's masterful march across the Sahara to Tunisia with Free French units loyal to the Allies, during WWII. In more modern terms, Chad is the site of Lake Chad, once a massive interior African lake, but now sadly depleted. The map includes an inset of the capital N Djamena. Sudan Travel Reference Map 3rd Ed., 1:2,500,000. This latest edition comes out at a time when a good map of the largest country in Africa needs a good map the most. Sudan is not a country with an improving infrastructure, nor is it one of the safest countries for travelers. However, its position in Africa makes it pivotal to the politics and ethnicity of much of northeastern Africa, and its importance can be gauged by the fact that this ITMB title is already into its third edition. It is one of the most difficult countries in the world to map, simply because so much of it is difficult to enter. We wish to dedicate this map to those brave souls who continue to provide food, and medical support for all the peoples of Sudan: the humanitarians, whose contributions have made this map possible. *Please note to all retailers and distributors, this product is NOT subject to Return or Exchange. It is well packed and should be sold as a bundle package to customers.*
