Essential Elements For Recorder Classroom Method - Student Book 1: Book Only

Synopsis

(Essential Elements Recorder). The new Essential Elements Classroom Method for Recorder is designed for today's classroom, including easy-to-use technology features that enhance the learning experience for any teaching situation. Essential Elements for Recorder is an effective tool for introducing or reinforcing general music concepts, as an introduction to ensemble performance (band, orchestra, and choir), or for individual or small group instruction. Includes over 130 songs, instrument basics, music reading, duets and rounds, music history, and a fingering chart.

Customer Reviews

I teach elementary music and I use this book to aid in teaching my 3rd and 4th grade students how to play the recorder. It's always my go-to book every year!

This is a great beginner book for students. Several of my elementary students have been able to easily progress through this book on their own, even though they do not have prior music experience.

Purchased this for my 10 year old grand-daughter to practice from. She enjoys using it a lot and it seems easy enough for her to continue practicing and learning from.

If your just learning a new sound instrument for the fun of it, then this book is helpful. If you are a bit more serious about playing than got get lessons. As a primer this book works. it is not as helpful as the one with the CD.

I love this book simply presented and well written clear directions very fine book AADeL

The book has a lot of new songs, it starts with the basics, and it shows how to read the notes.

Great for an absolute beginner with music for young and old.

Our daughter started music classes during a hectic time. This exact book was required and we had no time to go hunting for it locally. to the rescue. Ordered late one night and forgotten about until it arrived in perfect condition. It was slow to arrive, but it is exactly what the teacher wanted. Seems to be working...the typical first-time music student screeching has turned into melodic music... :)
