Excellent book.

Good work by Author in bringing the ancient knowledge in easy to understand way. Greatly enlightening to read.

Excellent book. I have many collections from Sanjeev and he has an excellent ability to convey Vedic knowledge for modern readers. We need many such books to dispel myths and present knowledge for future generations in various formats. Kindle has opened up a new media for people to consume things around the world. I have the full 4 Vedic pdf collections and I highly recommend that from Agniveer publisher (Yajur Veda, Sama Veda, Rig Veda and Atharva Veda). Vedas are so divine! Even modern corporates are realizing full potential of Vedas, Yoga, Meditation, Mindfulness in many realms including cognitive therapy and healing diseases. This book is a great intro to Vedic thoughts and described in easy English for a wide reach!

Good for High school reading. The book does provide a basic input into what Vedas are and is not to be used as serious read. I personally feel each fact presented in the book could have been more elaborated.

Good book.. This book tells truth of vedas..
