Praise for Valentina Harper: "My office team literally took a double-take at these adult coloring books. [They make] the coloring process fun. They're also a great tool for aligning one's thoughts with empowering truths and unleashing creativity." -- Mike Dooley, New York Times bestselling author of Infinite Possibilities

Portable, 1 sided coloring book. I shared a few pictures so you can see the size and bleed to the opposite side of paper. Pictures need to be justified right as the drawing goes too close to the binding on about half of the pages. Cute gift for \$5.

Lovely prints and very soothing to color. I also appreciate the quotes and sayings. I've concluded that it's not about how quickly or neatly you can color a design. It's about your journey in completing it and how much you've enjoyed whatever therapeutic benefits you've had while coloring.

I bought one of Valentina's other 'On-the-Go' books, and after I received it, I immediately ordered the other two. These smaller books measure 5.25" x 8.25", so they are slightly larger than some of the other I have, but still small enough to fit in my purse (I uploaded a photo comparing it to a full size coloring book). The variety of designs is really good, and most are simple enough to easily finish in less than an hour--perfect for when you just have a little time to relax. Sometimes I don't have the patience or time for an intricate full-page design. (See my photos). *The paper is nice and thick, and my Stabilo 88 Neon markers only bled through a tiny bit, but not enough to transfer to the next page. *Works beautifully with colored pencils (in my photos I used Spectrum Noir.) *The designs are single sided, with a quote and blank lines on the back of each one. The designs are mostly flowers and birds, but there are also a couple of full page designs (see my photos). I really like this book and I plan to order several more for my nieces and daughter for Christmas!

I've really enjoyed the adult coloring books lately and am always on the lookout for books with a different theme or look. I particularly love the ones that are a little bit smaller. Great things about the coloring book: 1. perfect size 2. fairly stiff paper, so it's fairly easy to color on your lap Not crazy

about:the style (too many circles). I realize this is a personal style preference so I just gave it to one of my daughters who enjoys it quite a lot.I bought this and another on-the-go coloring book by the same artist, but they just weren't for me.

I got a few of these books for my wife, and she absolutely loves them! They are a great size, and the pages contain gobs of detail to color in.

Great for anyone who has PTSD, depression, anxiety or just likes to color. Don't have to be a kid to enjoy it.

I have recently gotten into adult coloring for relaxation & just for fun. So far I am loving it. I am really attracted to Valentina Harper's design's & have bought several of her coloring books from . I receive excellent service from them. If you have the coloring bug this coloring book is for you. Highly recommended! You won't regret!

I love her designs but this book is just a repetition of previous designs. Had I known that, I wouldn't had bought it. If you haven't tried Valentina Harper before, this on the go little book is good to start with. Is very comfy to carry. I, however, didn't like the repetition of designs.
