When I opened the package containing this book last week, I couldn't help but smile! I love everything about the book! I love the idea. What kid doesn't want to take a bubble bath and what kid doesn't want to make their own bath bombs, bath gel, soaps and all kinds of other things! Quite honestly I'm excited to make some of these things for myself! I love that there are all kinds of recipes for all kinds of bath type things. There are bath bomb recipes, soap recipes, sugar scrub recipes, tub coloring recipes (make your own bath crayons!), bubble bath recipes and even lotion recipes. I

love that all of these items have to do with kind of geeky things. Things like Harry Potter (can't wait to make chocolate frog soap), and building blocks (my kids will love the building block soap!). And all of the recipes have great pictures and easy to follow directions. I know that this is going to be a well used book. I can't wait to get started!

I just received this book and was surprised at how many different types of projects are in it! Right away I know my kids will love all the bath "bomb" and bath salt ones. There are some cute unicorn/princess/pink and purple projects, but my house full of boys are excited that most of the book is full of alien/superhero/zombie related ones. Of course, it would be very easy to change the colors to suit whatever your child is interested in.

Opening this book brought immediate excitement to my boys' faces! The crafts are engaging, fun and don't require a lot of items. It gets the electronics off and brain power on!! BUY IT

This book is filled with so many great crafts for kids. The steps are easy to follow along! Wait until you see the eyeball lip balm!!!!
