The Annotated Mona Lisa: A Crash Course In Art History From Prehistoric To Post-Modern

Synopsis

Be smart about art. The Annotated Mona Lisa takes art history out of the realm of dreary textbooks to a world of dynamic design, succinct page-length essays, and instructive sidebars.

Customer Reviews

We were recommended this book as a supplementation for our art home school curriculum. My daughter seems to enjoy the book.

This book is great, not only for ART lovers but also to those interested in knowing more about the History of Art. Easy to read, the book gives a good general overview of important artists and works. Has good insights about the different artists' personalities, making the book fun to read.

Great, easy introduction to art. I'm using it for my new art history class.

An excellent overview for those of us with the interest but without an extensive background in art. It's written clearly and is fun to read with important and /or interesting facts noted about particular artists or art movements within the context of their times.

Great book!

ok for a quick reference

Required for a college course, this is one book that I won't ever 'recycle'. It's perfect for reference long after it's ever required reading -- and if you're just an art buff, you're going to find this to be a treasure.

Excellent used condition, book. So happy I bought this instead of a much more expensive new one. Also, it's kind of like a cheat sheet for Art History. It covers a lot of info in small, understandable pieces. I am going to use it as a supplement for teaching high school Art History.
