Beginnings: Adventures On Terra, Book 1

Synopsis

Armon Ellington is 19 year old kid that always felt out of place. He's an orphan, a gamer, and a role playing game geek. When he dies after a 72 hour gaming marathon, instead of going to an afterlife he's transported to a new world governed by rules that are eerily similar to the RPG games he loves. On this new world, Terra, he can be anything he wants, a warrior, mage, or even a crafter. Only, Armon wants more than that, he also wants friends and family. Join Armon on his journey through this amazing new world where he'll go on adventures, explore dungeons, slay monsters and hopefully find the friends and family he never had on Earth.

Biggest pet peeve: The main character acts like a 10 year old and the people of the world treat him like a 10 year old. There is not a lot of world building, and remains a basic plot in a stereotypical world.

Well, I love litrpg. I love Perimeter Defense, the Land, Start the Game, and many others. But this book just couldn't hook me. I was bored and I just didn't care. After about 30% of the way through I just dropped it. It wasn't good. I totally don't understand the high average on the star rating. I see it as a two star as I couldn't even finish it.

Meh, this was a nice story, some errors in grammar made the read confusing at points. The

characters are interesting enough to hold you but not enough happens. Need more RPG in this LITRPG. Level this guy already. The magic is weird too.

I read a fair bit of litrpg. This book stands out for two reasons. First, the relationship between the two people you see on the cover of the book. Second, this feels like you are playing a good game. This book is a smooth ride from beginning to end and leaves you wanting more.

A nice addition to the LitRPG field. A different approach to char leveling, it was nice to see a slow steady method where the chars really worked for each xp point and skill. Likable chars with a nice story.

Author writes well. Really good descriptions of people and places as well as the fight scenes. A good, light read.

I just wanted to put a note in for the author. I have enjoyed the story, however, it is unnecessary to begin most sentences with "I". Try to write it a little more creative. Such as, instead of, I woke up early in the morning and the sun is up (which is redundant) say, "waking early the next morning just as the sun is cresting the horizon". It is just a thought.

You are a genius Mejia. I look forward to the next book, make it happen. Awesome book, well written, but to damn short. Getter done man! Everyone read this!!!! Support this marvelous man and his great skills!
