This is repeats pics from other fashion books. Same girl , same outfit, only change was background... just fair....that all.

at first I was on the fence of this coloring book, it had so many different looks and different girls just on pages I like it but its not quite what I am use to in a coloring book. the beginning you have lots of pictures of figures with backgrounds and then towards the end you just have random girls and women in different poses and some that are just faces. its not a bad coloring book just very

different.

Purchased for my 11 year old daughter that loves fashion and detailed coloring. She enjoys the coloring book only negatives are the amount of design on each page. The designs are centered on the page and don't allow much to color. Also, there are some revealing pictures of the female body.

So sorry I spent money on this! Each picture has the same background with female figures wearing casual clothing, jeans, etc. On top of that the clothing has the same design--little circles, not much room for imagination or creativity. The last part of the book has unusual free form girls with no background.

The second half of the book is great the first half is all the same pretty much and very small, does not take up the whole page. I would honestly not recommend this book.

The " Trip to Paris, took up most of the book, not enough actual pictures, No I would not buy this book again Doodling is not my thing

Great pictures in this book but they are smaller than expected because most don't utilize the full page. Not sure why. Full face pictures at the end of book is completely different theme than the rest of the book and are a bit cheesy for me.

Was so disappointed...the pics are so much smaller than I was expecting and while they're details..being so small makes it harder to color them without messing up the picture.
