It comes brand new so that when you open the cover, it bends and makes that new book sound. It seems like a great book full of pictures and has way more current information than Dare to Dream, etc. That's only because it came out recently and tells you all NEW stuff about the boys! It has a hard cover which is always better....and is very long! So not the best idea to get little children unless you are planning to read it to them! Great for teens! And if you're sick of those lame 50 page books

about them this is your best deal so far!

This is literally a 'big' book. I was expecting a soft cover, typical tween read, but was pleasantly surprised when this book arrived in my mailbox. I purchased it for a young girl for her 13th birthday. She's a pretty big fan of One Direction and I always love finding creative ways to inspire kids to read. She gets to learn about her favorite band members- and she gets to read! Win win!!, personally, did not sift through the book. It came in pristine condition. The hardcover had that new book 'crack' as it first opened. So I didn't want to mess with it too much before she opened it for her birthday. It is hardcover. And a quality hardcover. The pages are glossy with high resolution pictures and clear print. The quality of the book is worth well over it's asking price. The cover is glossy and has embossed writing (textured writing). There is a really fine shine to the front of the book. The pages are thick and high quality paper. Each page is packed with information and pictures- creatively laid out in a way that any tween girl would appreciate. It's very age appropriate for girls ranging from 10 to 15. I think the reading level is a bit sophisticated for elementary kids- but even so they would probably really enjoy the pictures. The size of the book is fairly big. It's thick! Full of pages. But the actual size of the book is large too! I'd say it's about 10 inches wide- which is pretty big for a book. It's sized similar to a typical library encyclopedia (but not quite as thick). All in all, I was very pleased with this book. And the girl who recieved it absolutely loves it!

love it with all my heart omg its so perfect it has 192 pages and so many pictures and its recent because it has pictures of zayn with his blonde streak! AHHH!!! its so perf i love it and it came earlier than expected by about 3 days!

My 9 yr old was ecstatic to receive this at Christmas. She has poured over the pages, reading about each one. She brought it to a family gathering and her older cousins enjoyed looking at it and discussing it. It is a very thick book and excellent quality. With the time my daughter has spent actually READING it, I think it is definitely worth the money spent.

Got this for my daughter as her christmas present. Initially the delivery was sometime in Jan 2013. Was surprised to get a mail saying it will be delivered in Dec. it came 2 days after Christmas but much early then projected so thnx . Book is hard cover and very good print quality. My daughter loves it

This book is jam-packed with photos and stories about the One Direction guys. The fact that this is a hard-cover book at such a great price makes me even happier!

Sorry. I thought I wrote a review, This is exactly as described, delivered before it's time (Tysm!). My daughter loves it!!

Cover is very scratched. Inside pages are perfect. My daughter was more than pumped about it. She brought it for 'Bring your favorite book to school' day.
