Customer Reviews

I got this for my fiance as a Christmas present. She loves it and listens to it daily while commuting to work. It thrills her to pick up on the everyday words of France. It may not be the best way to learn an entire language, however, in combination with other materials, this will lead the learner to the right place.

Wonderful course requiring no prior knowledge of the language. Would recommend you have a French dictionary at hand. Can't wait to visit Paris and parle Francais.

Great to get started or reacquainted with the language.

This is a great way to learn French. They repeat it enough that if u didn't get it the first two times u do by time they r done by hey reinforce it and u get a booklet to see the correct spelling too. Very easy to use. It makes learning fun and quick.

This is the best idea, listening and repeating the languages, when I am on my way to and home from work. I even wake up in the morning remembering what I have learned on the day before. Recommended to all who want to learn a language fast

My wife is learning from it. I feel like I'm in Paris once again.

I bought this because I wanted to re-engage my French skills during the time I was in the car. This disc is specifically formatted for hands-free activities. You will not learn how to speak French just from this disc, but it does provide you with some basics of grammar, vocabulary and conversational skills. If you want to see the material in text format, there is an accompanying book.

Initially, I was quite happy with this purchase. I'm not on a time-frame for my language learning, so I'm taking it slowly and making sure I understand each section before moving on. The format of the first CD is great. You learn the basics of French - first and foremost being the masculine/feminine differences, when to use and how to say things like un, une, le, la, l', and so on. They talk about things that you would see while you're out driving so you're learning about trucks, cars, bicycles, big, small, houses, some colours, etc. Each section is broken down with lots of opportunity for you to repeat the French. You also learn how to string some sentences together (the car is big, my car is beautiful). Overall, I was happy with the structure and format of the first CD. Enter, the second CD. The format is completely different. Gone are the baby steps to help you get a handle on things (it is, after all BEGINNER French). This CD starts throwing grammar, sentence structure, and what I would consider slightly more intermediate French at you. The pace is faster, and some things are difficult to understand. My initial reaction was to eject the CD and throw it out the window, I was so disappointed with the dramatic format change. However, I've kept re-playing it and it is slowly sinking in. Patience pays off, as I can understand more with each replay. Trouble is, I don't feel like I'm learning as quickly or as well as I was with the first CD. All in all, this series was a disappointment and is not for me.
