## Customer Reviews

new edition textbooks are not reviewed

Ã¢â“Robbins, Hintz and Moore have taken something excellent and made it even better. It remains asÃ Â comprehensive yet accessible as the first, and by adding new material about human-nature relations, the authors ensure that edition two reflects important recent developments in thinking and practice.Ã¢â•Ã¢ââNoel Castree, University of Manchester Ã¢â“This

masterful synthesis of environment-society scholarship brings together cutting-edge ways of thinking about nature/society entanglements with highly grounded objects of exploration--from lawns to bottled water to uranium. The dynamic and accessible writing style belies the book's empirical and theoretical sophistication. For upper-level undergrads and lower-level graduate students of environment-society relations, this new edition remains the "go-to" text in the field.

•Kendra McSweeney, Ohio State University Columbus "As an introductory text reflecting contemporary scholarship via plural perspectives and hybrid objects, Environment and Society continues to innovate."

•Jim Proctor, Lewis & Clark College

I absolutely loved this textbook. It's really easy to read and kept me interested. I started reading it and finished it before my class even started. It covers so many different areas too. Loved that it talked about overfishing and Tuna, although it could have gone more into depth with it. I would highly recommend it!

Amazing book!! So useful and very informative. Gives you a great perspective and helps you look through a set of eyes set on keeping us sustainable

Finally, an easy to read textbook! Funny and interesting all in one! I like this book a lot and I hope I have an excuse to keep reading it in the future.

I purchased a used copy for school and it is actually a really nice book. It took two days to ship. I was pleasantly surprised.

Great book. Explains things clearly and consistently. Breaks down complicated issues well and easy to understand.

Item just as described. Thanks!

It's good

It is in perfect shape i love it
