Grade Level: Preschool and up

Customer Reviews

This book is the bees knees. Many touch and feel books are very boring in the sense that they are all FUZZY. "Feel the furry dog, touch the hairy gorilla, pet the soft bunny". I like the variety in this book and so does my baby. Anyone complaining about their kids ripping things out of it, shouldn't be displeased with the book. This is just one of those that we play with together as to avoid such incidents. The price is not ideal buuuut I also am 5 dollarizing myself to death buying said "fuzzy" touch and feels, so I justified the cost. If you dig this book, I recommend some of the touch and feel Priddy Books. We have T for Truck and.... a couple of others... they have something to touch on every page (like this one) and they're all pretty much different. Yay touch and feel books

Good size and weight for a board book, better variety of textures than the average board book. My baby likes it.

I bought this book for my daughter when she was around 6 months, and she is over a year now and still loves it. I love the size and sturdy construction. The feathers haven't been an issue for us at all, but my daughter understands how to touch gently--if you have a super grabby baby you may want to find another book. I really like the variety and number of textures in this one, it's a short and easy read but she enjoys it and we still read it every day.

Good

My daughter definitely like the original Pat the Bunny book the best, that's why I'm giving it 4 stars but she likes this one quite a bit as well. I like that it's made more sturdy than the original book.

Love the variation of touch and feel textures in this book. The pictures are big, bright, and fun! It keeps my 1 year old entertained longer than only other touch and feel book we have!

My son absolutely loves this book (he's currently 1 year). He looks through it at least once a day and often requests I read it to him multiple times. He loves to touch the animals on each page! The only downside I'd say is the bird. The feather is SOO big he nearly tore it off the page the first day. He's gentler now so it's not a big deal but other parents could find this as a choking hazard. Otherwise, I LOVE LOVE LOVE this purchase!!

My 1 year-old son adores this book!! I got it for his birthday and he looks through it every day and he requests me to read it over and over again. He loves to touch the animals on each page, specially the parrot which is a bit delicate, and the seal's whiskers. I think it's a great book, even parents will enjoy reading it!
