Chemotherapy And Biotherapy Case Studies

Synopsis

Test your knowledge with 21 all-new case studies covering a diverse range of clinical topics involving chemotherapy and biotherapy. Each topic provides comprehensive questions and evidence-based rationale for answers. Topics range from combination therapy and dose calculations to targeted therapies, oral agents, infusion reactions, extravasation, toxicities, and more. Symptom management, ethical issues, and survivorship care planning are also explored. Oncology nurses at all levels can use Chemotherapy and Biotherapy Case Studies to brush up their knowledge on unique situations involving cancer pharmaceuticals. The book is also an excellent resource for nurses new to chemotherapy and biotherapy administration as well as nurse educators.

Shipping Weight: 9.6 ounces (View shipping rates and policies)

Average Customer Review: 5.0 out of 5 stars 1 customer review

Best Sellers Rank: #1,327,488 in Books (See Top 100 in Books) #57 in [Books > Textbooks > Medicine & Health Sciences > Medicine > Clinical > Chemotherapy](#) #112 in [Books > Textbooks > Medicine & Health Sciences > Nursing > Clinical > Oncology](#) #171 in [Books > Medical Books > Nursing > Oncology](#)

Customer Reviews

This was a great book because it provided a patient story and then asked you questions based on the information you were given. They did a very good job explaining the answers and also provided just basic information about the situation. I found this style more enjoyable to read and learn from.
