50 Hikes For Eastern Washington's Highest Mountains is a no-nonsense and "user firendly" guide to the highest and wildest hiking spots in Eastern Washington by hiker and photographer James P. Johnson. Enhanced by color photographs and trail maps, as well as descriptions for the top of each summit, instructions for traveling to each hike, and so much more, 50 Hikes For Eastern Washington's Highest Mountains is an excellent motivational guide to bestir backpackers and armchair travelers to go out and experiencing what nature has to offer them by way of scenic recreation.

This is not an overall guide comparable to 100 Hikes in the Inland Northwest (Rich Landers). This is

specifically geared to how to get to the highest mountains in Eastern Washington. And while many are quite popular - others are virtually unknown. If you want a secluded hike with a great view, this book will do that. The descriptions to the trailhead are good and carefully note private land ownership considerations. I wish the book mentioned whether the trails and peaks are protected from further development; many of these areas are wild forests but threatened by logging or road-building. If you already own 100 Hikes, this is a good companion especially if you like solitude and a trail less traveled.
