Little Owl's 1-2-3

Synopsis

Little Owl flies through the night forest, visiting his friends. One friendly fox says hello, two beavers wave, three skunks nibble berries. And when Little Owl finally reaches his own tree, he sees Raccoon who has gathered ten acorns. Sweetly told, 1-2-3 is just right for children learning their numbers!

It's cute, but I was hoping for some new illustrations. The pages (while very slightly different) are basically blown up parts from the Little Owl's Night book that I already have.

We have very young twin grandchildren who are delighted and enchanted by all the Little Owl books. For the very young, under a year, it helps that the scenery and animals look the same in

each book; it helps them to carry through to the next. They are always wanting Mommy or Daddy to read the next Little Owl book. They are sweet and charming board books and I highly recommend them for any infant or toddler.

Beautiful! If your little ones love Little Owl's Night, they will be delighted to learn to count with Little Owl too. Easy for little hands to hold and turn pages. Gorgeous!

Daughter loves this book. I really like that each page has the numeric and word, ex. 1 and one. The actual number could be larger on each page. We have three Little Owls books, love the common theme/colors.

My son who is 18months old loves this book. He is addicted to everything with owls. The pictures are very cute. Perfect bedtime book.

This book was bought in a set of ones from this series. I love all the books and would recommend them to everyone! They are my daughters favorite series to read

Cute book but basically the same as Little Owls night read in a different order with the addition of counting to 10

Beautiful illustrations rarely found in a board book. Perfect for a 1 year old birthday present.
