Customer Reviews

Really enjoyed this small, but insightful book. She provides good ways to communicate with the angels. I love the part about thinking of them as best friends. Growing up I was taught to call on the help of angels could lead possibly to opening the door to evil spirits, instead. I know now that was fear and ignorance based, but it took me many years to look past those early teachings. Love that she writes about teaching children about angels.

what an amazing book this is. i learned so much from it and kelly keeps you interested from the beginning sharing her story about her exper. she had with angels and her family too. i really like the ideas she has to help you connect with angels and show you how to recognize the signs that are out there. when my mom passed away it was so hard for me and then i started seeing signs from her and knowing what they meant and having that exper. with the help of this book made me heal. i definetly recommend this book.;)

Very easy to read and understand. I good guide to help you start to connect but then again I believe in angels. I am very happy I bought this book, I will be referring to it over and over.

This is a nice little book, and I recommend it. I've never had much interest in angels, but this book was informative and comforting. It was helpful to read about the subtle ways in which angels let us know that they are around us. The meditative activities were also well conceived. The book is well worth the cost.

Very good book. Very interesting information that can be helpful for those seeking to communicate and work with their guardian angels.

This book has reinforced my spirituality with angels. By reading this book, it made my emotional and intuitive thinking so very positive. It made me more positive about the things around me and gave

me hope.

I read this book while going through a difficult period in my life. It helped me to calm my anxiety and fears. I especially enjoyed making an Angel board.

I love the angels and believe in them. I wish everyone did. It would make life and the world more pleasant!
