Customer Reviews

After enjoying Kerry Ann's free tutorials online, I resolved to purchase her book and I am very satisfied. It is extremely difficult to develop healthy palates in children leading to an appreciation of vegetables. Kerry Ann succeeds with style and her advice for encouraging healthy eating is helpful. So far, my teenagers enjoy all of the dishes and so I plan to purchase additional copies when they leave for college. The layout and photos (including Kerry Ann's kids) are delightful. My only

complaint is the absence of American measurements--perhaps they could be included in the next edition.

I love watching Kerryann on YouTube. Her meals look tasty, and her style is so approachable. Definitely check this out. The book is a good cost for what you get.

I've seen her on Jamie's Food Tube and liked the recipe she made there. I bought the book and found several more recipes to try. They aren't complicated and they all look delicious.

This is a great little cookbook if you want simple, easy, comfort food. It's the companion to Jamie Oliver's Food Tube series on You Tube, so you can watch Kerryann fix the recipes, too.

I like Kerryann so much! With a small and a little child next to me her simple but colourful recipes are perfect choice for me every day.

This little cookbook is packed full of great budget-friendly family meals. Kerryann Dunlop is a fantastic teacher and a superb chef. Wonderful purchase!
