Dinosaur Sticker Book

Synopsis

Children are already stuck on dinosaurs – that's why they all love sticking with this entertaining and informative activity book, created in association with the British Natural History Museum. Packed with 100 colorful and reusable stickers to choose from, as well as a fabulous pull-out landscape, it introduces dinos big and small, fierce and gentle. Kids will enjoy learning dinosaur names; unearthing fossils; building dinos by matching bones and skin – just like a paleontologist; helping T-Rex find his dinner; and filling in fun and challenging puzzles. There are lots of bite-size facts about what these extinct but always compelling creatures ate, how they moved around, where they lived, and why they all disappeared. Everything is fully checked and approved by the British Natural History Museum dinosaur experts Angela Milner and Richard Butler.

My 3 year old dinosaur-loving nephew loved this sticker book. Played with it for over an hour at a restaurant which allowed the adults to have a nice, long peaceful meal!

My 3 1/2 year old grandson cannot get enough Dinosaurs and he loved this. A 30 year old friend is also nuts about these creatures and he was really impressed with the details and colors of the stickers.

Kept my 3 year olds entertained on a flight for quite a while.

Very good quality. My son loved it! May have to order another for him-as he used these stickers up fast!
