Customer Reviews

3.5 stars
Not as good as the first book in this series. I love these families, I love these characters but the idiocy of Victoria & Adrian was off-the-charts ridiculous. Victoria is 21 years old, has had diabetes since she was three years old & STILL has multiple scenes in this series where she neglects checking her glucose levels/injects her insulin, putting her health at risk over & over. "I knew I should have gotten up to check my blood sugar. At the very least, I needed a shot of insulin. But I couldn't bring myself to care." "F***, I knew I needed to check my blood sugar... I needed insulin and soon." "I was exhausted and needed to check my glucose levels, but I didn't want to do it in front of him." "I hadn't had the chance to check my to check my blood sugar in almost twenty-four

hours. Hadn't eaten at all during that time.""I had never left it this long between doses of insulin. I had been reckless, I would gladly admit that much but I wasn't usually this stupid."Really, Victoria? Because the proof is in the pudding above. I can't even... *smh*And Adrian... I can't believe it took him that long to deal with the Klara & Theo situation. I just was so disappointed & baffled with why he didn't or couldn't think of another way to deal with things before meeting & falling in love with Victoria. He's a Bratva boss, he's got resources out the wazoo & the only way he could think of protecting Theo was by "involving" himself with Klara? He could've made her disappear with a snap of his fingers. Makes no sense at all to me. And the fact that he didn't wait till the paperwork was signed before they bumped uglies... I don't know why it bugged me so much but it did. *sigh*That said, I couldn't put the book down. I love the way the words flow from this author's fingers, so I will most definitely continue on with this series. I just hope that the most memorable things about the next couple are not such negative ones. *fingers crossed*Speaking of the next couple... not sure if he is next, but WTF is up with Cristiano in the epilogue of this book?! Talk about a cliffhanger where his storyline is concerned!

I wanted rather patiently (not really) for this book. I was not disappointed. Terri Anne has hit a major homerun with this series. Victoria and Adrian are fated to be together, but there a few obstacles to get through. We only had a small snapshot of Adrian from Defying her Mafioso, so I really liked how she fills in the story of Adrian and his situation. I loved how alpha male Adrian is and how strong, but a little soft Victoria is. It was the perfect mix. I really hope there are lots more stories to come.

I've been obsessed with Adrian and Victoria since I read the first book. The wait for the book release was torture and soooooo worth the wait. I wanted this story to never end. The writer is amazing at bringing the emotions and possessiveness of these characters to life. These 2 are by far my most favorite couple of all time. Their chemistry and intensity is off the chart hot! Lord grant Ms Terri the ability to write effin fast cuz I cannot wait for Cristiano and Anya's story!!!!

I'm a sucker for men who are extremely possessive and devoted to their women and are not afraid to show it. Adrian and Victoria had an instant deep emotional connection from the moment they met. Adrian had to get some things settled in his personal life before Victoria could accept his complete commitment. So far, I love both books in this series and can not wait for the next.

I absolutely loved it. Victoria was a little Stubborn about hearing Adrien out, but for the most part I

completely fell I love with this couple. I loved the backstory and the explanation of Theo. I love how Adrien never gave up on her, and the ending was awesome. There was definitely enough context clues that I hope we get to read Cristiano's and Ana's story.

The story seemed rushed. At one point Victoria's name is mistakenly used instead of Scarlett's so I question how carefully the book was edited. Also displayed a complete lack of knowledge of Type 1 diabetes IMHO. Type 1 diabetics do not drink alcoholic beverages, not take their readings or eat consistently unless they want to die. In addition she would have been taking long term insulin such as Lantus or Toujeo with the Novolog. And since when is having diabetes such a weakness? I guess it is if you act like an idiot despite having had it for 18 years.

She did it again and it still addicted to her work and it only leave wanting more. Now I have to wait for her next book and after that next one you must read Victoria's and Adrian's book this book had me crying and rooting for their love to win and I can't wait for the next book for the next character thank you amazing

Wow just Wow, This latest book kept me on the edge of my seat the entire book. I felt like I could feel both of their pain and the immense love they had for each other. Adrian showed what a true man he was by being there for his brother's son. I can't wait to see what else happens in the next book.
