Please get this book, it can save your life.

Perfect

A few days into following the guidelines/suggestions and my blood sugars have either been in the excellent to good range!! The information on the foods to eat and to stay away from has really helped me. The diabetes destroyer drinks are very tasty and have really regulated my blood sugars. Thanks!!!

I was testing my blood sugar 9 or 10 times every day. I injected insulin so often I felt like a pin cushion. You know your diabetes is bad when you develop calluses too thick to draw blood through! I felt chained to my refrigerator, where I kept my insulin. Just the thought of vacation, or even a day on the town, made me anxious about making sure I could get to my insulin when I needed it. Diabetes was stealing my happiness. Since I've discovered your Type 2 Diabetes Killer Formula, everything is better. I stopped just managing my symptoms, and started naturally jumpstarting my pancreas. In just three weeks, I was down to needing just 1 insulin shot per day. 6 weeks into the program, I used the last insulin shot I ever needed. Since then, I've been diabetes free. Thank you for taking away my anxiety and letting me feel happy again

Interesting and helpful for diabetics and pre-diabetics. If you are interested in alternative helps you will enjoy this book.

Poorly edited and unreadable. There might be some good information contained in this book but I can't tell because it is not readable. It seems as though it was poorly translated from a foreign language into English. It's abominably bad. I do not recommend this book, don't waste your time.

thank for your ebook its very good !

There is no way to reverse or cure diabetes with food. Please stop with the false claims.
