Customer Reviews

This is a lovely book of coloring designs based on gardens. The designs are whimsical with gates,

fountains, birdhouses, animals, fairy houses, and even a young girl on a swing. There are all sorts of elements which bring me right into the garden setting while I am coloring in the book. Having a wide variety of green pens/markers/pencils will make coloring in this book even more fun. The designs are detailed and a few have intricate and rather small areas to color. The projects will be fun and take some time to finish so there is a great value here. There are 25 designs but the publisher has included two of each design for a total of 50 coloring pages. I have to decide whether I will color the designs two ways or share the book with my husband and see how differently we color the same designs. While you can have access to .PDFs when you purchase this book, my review is based on the book as it is received from . That way you will know what the pages look like and how they accept color. I like that the publisher provides the digital version as well so you can choose the paper you wish to use and/or to color the pictures as many times as you choose. This is what I found while coloring in this book and testing the paper with my coloring medium: 25 x 2 Detailed Garden inspired designs. Designs are printed on one side of the page. Paper is typical of CreateSpace: white, thin, slightly rough and non-perforated. The back of the page is printed black which is something I am find typical of Jade Summer coloring books. The designs do not merge into the binding. There is a heavy framing line at the outer edges of the design to give the project a more finished look, especially for framing. Glue Binding (there is room to cut the pages out if you choose to do so.) Though you cannot see the bleed-through easily due to the back of the page being printed in black, I recommend the use of a blotter page when working in this book. I use a page of card stock or several sheets of heavyweight paper under my working page. It keeps seeping ink and marring dents from ruining the pages below. Alcohol-based markers bleed through the page quickly. Water-based markers bleed through in spots. Gel pens and India ink pens leave shadows on back of the page. India ink can bleed through if you apply heavily or multiple coats. Coloring Pencils work well with this paper. I found that I could layer the same color for deeper pigment or multiple colors and I could blend easily using a blending stick. I tested both oil and wax based pencils. I also found that hard lead pencils leave dents through the paper.

This was a Christmas gift and it was really loved. This is the first book I was able to actually hold in my hands. The paper quality was great and made so the colors don't bleed through. The pictures were wonderful. Still my favorite... Jade Summer adult coloring books are winners no matter what coloring book of hers you choose. This book has lots of details. Can't wait to see more.

I chose this book because it is designed to allow me to use my ink pens which you cannot do with a

regular coloring book because they leak through to the other side. Each page has a black backing which is supposed to keep the ink from bleeding through to the page behind it. It is about 98% to 99% effective, however sometimes a slight bit of color will come through. It hasn't bothered me too much so far, as it is just a hint of color in some spots. I enjoy the pictures, and they are fun to color. I would not allow this small issue keep me from ordering this book, it is delightful and the concept is appreciated.

I like the designs in this book. They are fun to color. What I didn't know was that there are 2 sets of each picture, so there are actually less pictures than expected. Still enjoyed it though.

Absolutely beautiful drawings and I love how their printed only on one side. I would give 5 stars if the pages were perforated so I could easily tear them out.

Jade Summer is a beautiful artist capturing the beauty of landscape. Each page taking you to a new place. Designs are full page and intricate with a lot of whimsy. I recommend this book.

This is a fun book and i love that it has each picture duplicated so you can experiment with different colors and ideas

Can't tear out pages easily. Too small to color. If you like incredibly detailed pages this is the book for you.
