Barbara Weltman, "America's #1 Small Business Tax Expert" has done it again--(I think it must be 16 or 17 years) that she has collaborated with JK Lasser to publish the annual "Small Business Taxes". For the last seven or eight years, I have done an "Internet live streaming" with Barbara to discuss the most important tax issues for that given year. My 1000's of Small Business Social Media Followers look forward to this information each year. This year Barbara has expanded the book with two additional chapters and a greatly expanded Index. I have a special way that I read Barbara's book, that I would like to share. First I read the Chapter headings to see if there is a particular subject that I personally need more information. Then I study the Index to see if there are specific "key words" that I need to examine. About five years ago, after I had "live streamed" with Barbara, I was motivated to try something new---which was a tremendous learning experience for me. I purchased some tax software, at Barbara's recommendation, and did a first draft of my business tax return for that year. I then took the return to my CPA---who "audited" the return, and spent less than an hour of his time. He only charged me for that time, saving me several hundreds of dollars. So that year's purchase of her book (less than \$20) realized a substantial ROI for me---and I learned how to run my business more efficiently. Thank you Barbara! I highly recommend that you purchase "Small Business Taxes 2017" with a very modest investment, and it will be the best investment you make in your Small Business this year---and in ensuing years...

no complaints here, excellent reading, still would recommend getting taxes done by a pro but at least it give you an idea of how to find that pro and what the pro should be doing for you.
